

Из горячего колодца через нос водица льется.

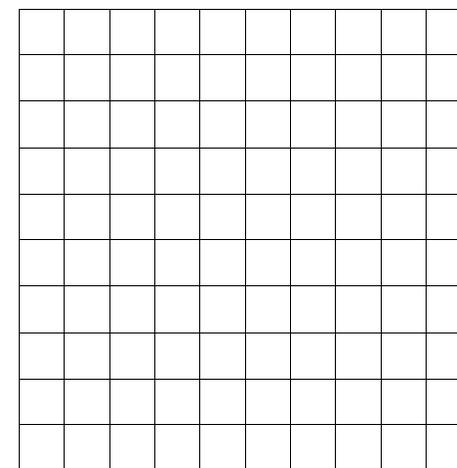

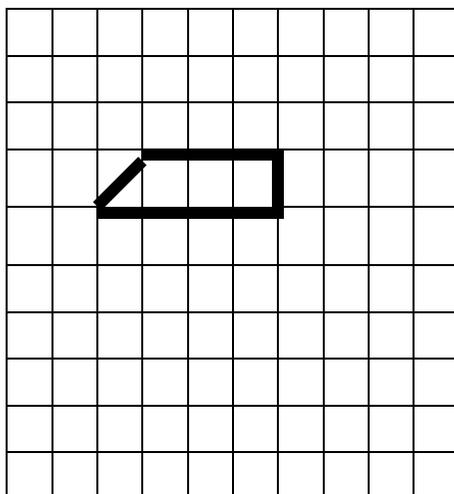

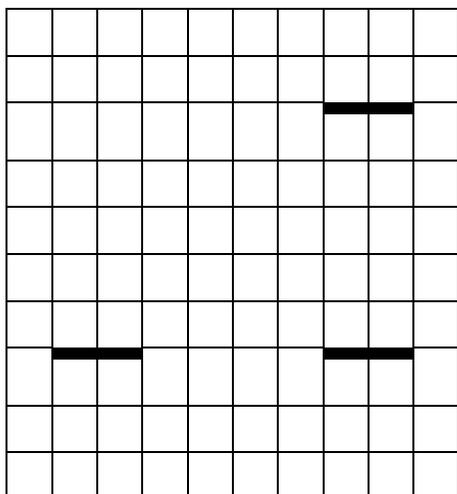

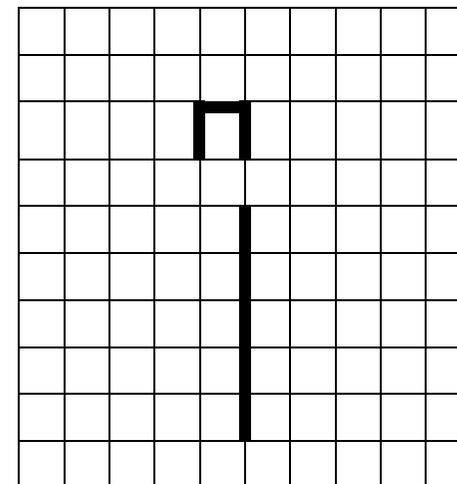

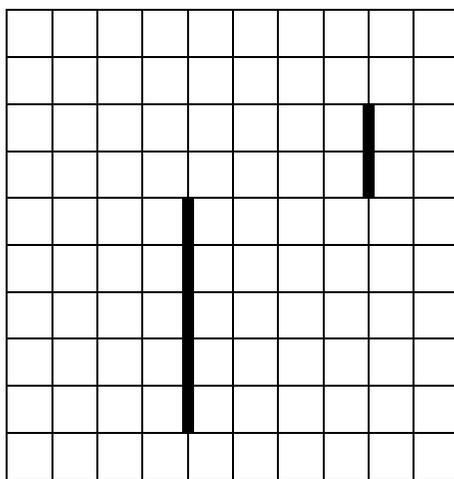

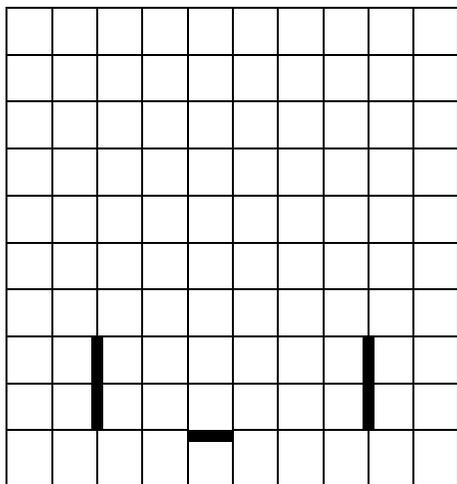

**Я землю копала - ничуть не устала,
А кто мной копал, тот и устал.**

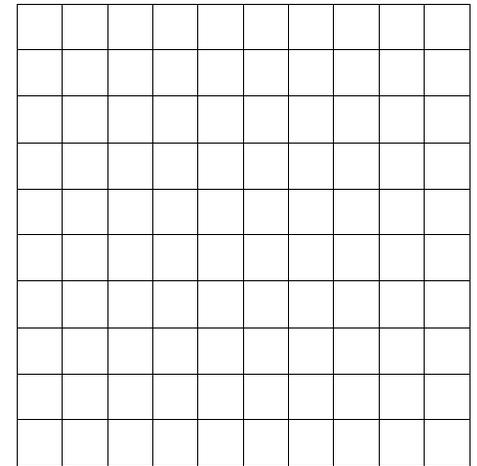

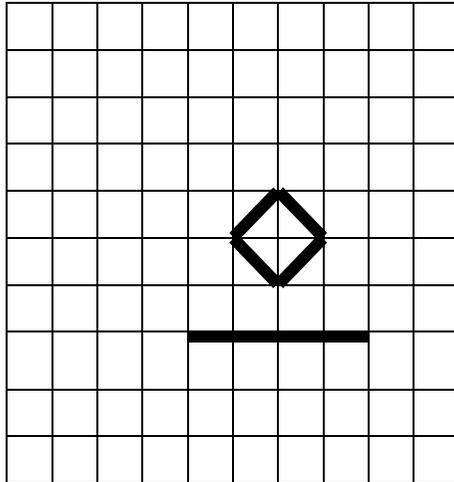

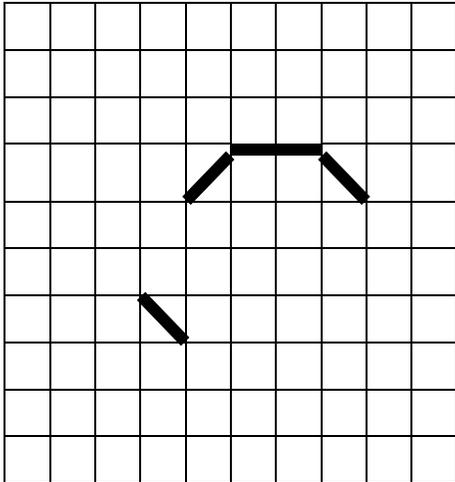

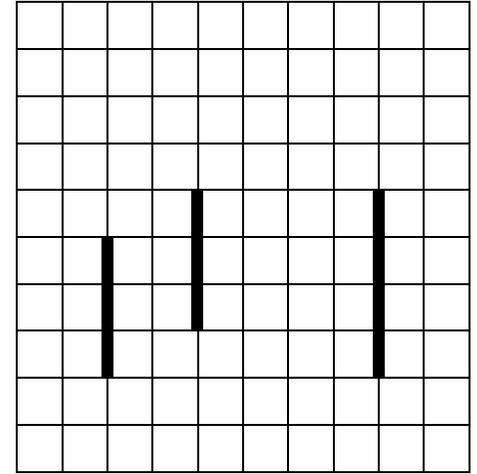

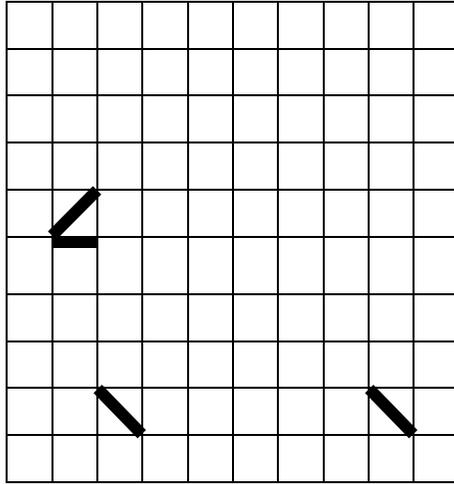

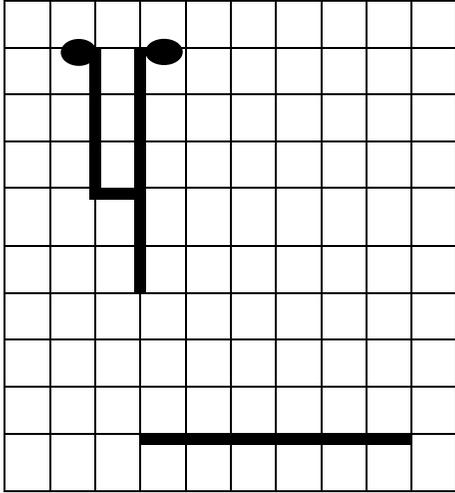

**Он давно знакомый мой,
Каждый угол в нем прямой,
Все четыре стороны
Одинаковой длины.**

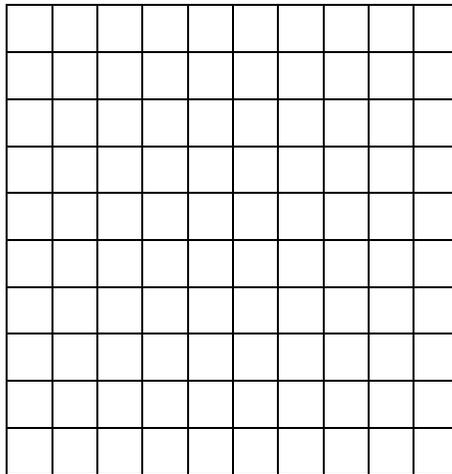

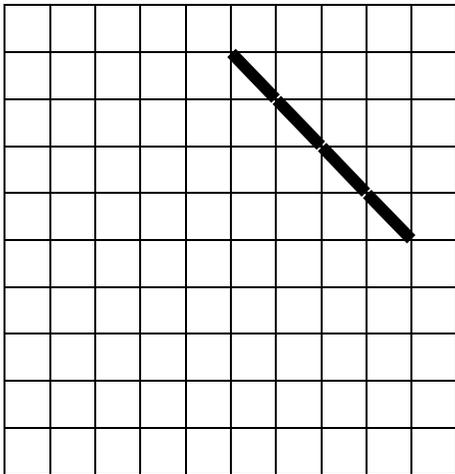

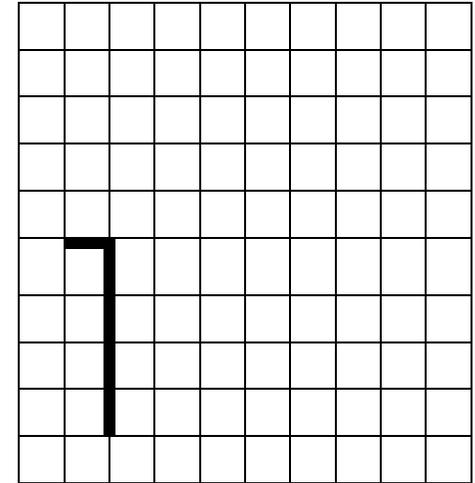

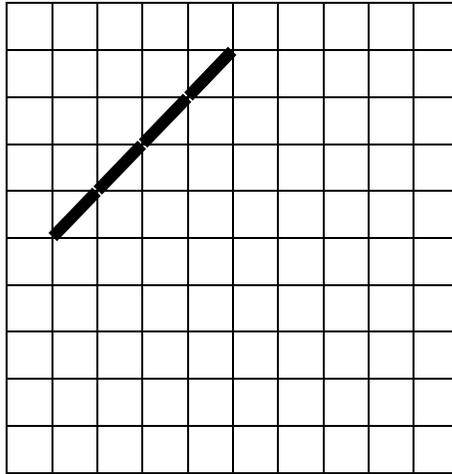

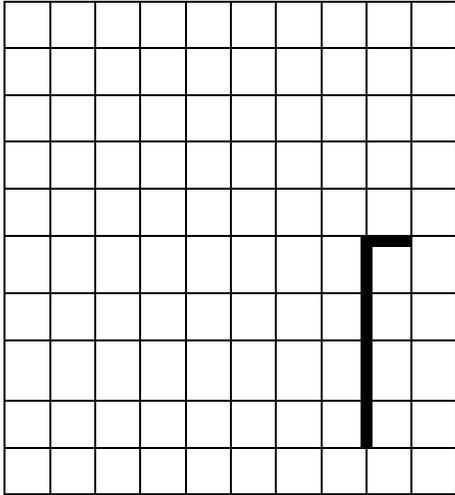

**Два квадрата – близнеца,
Половинки их отца.
Сторонами приложи
Имя их отца скажи.**

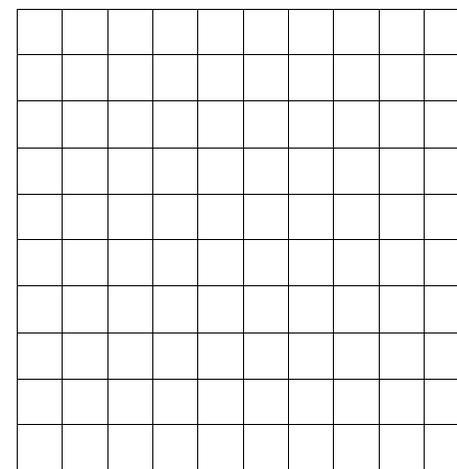

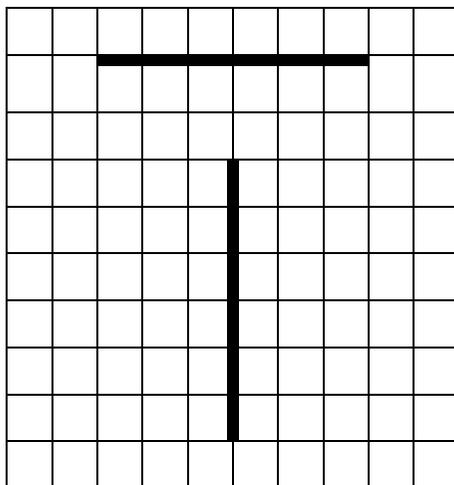

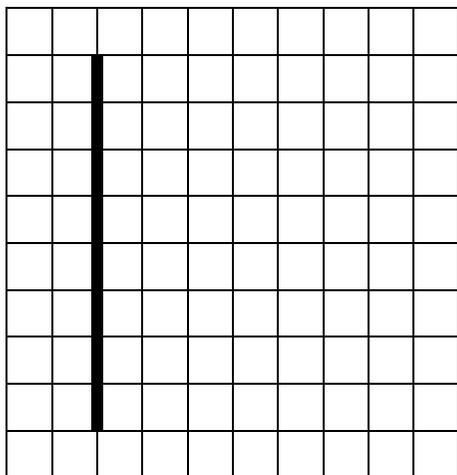

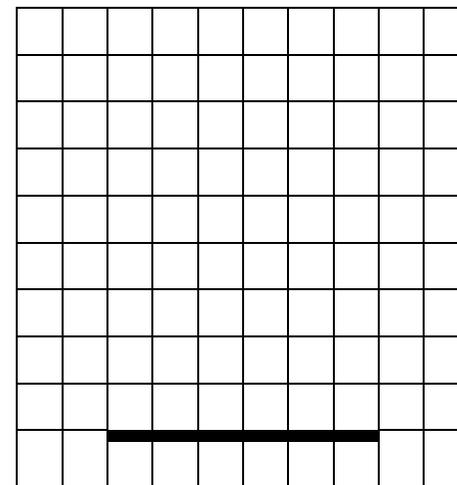

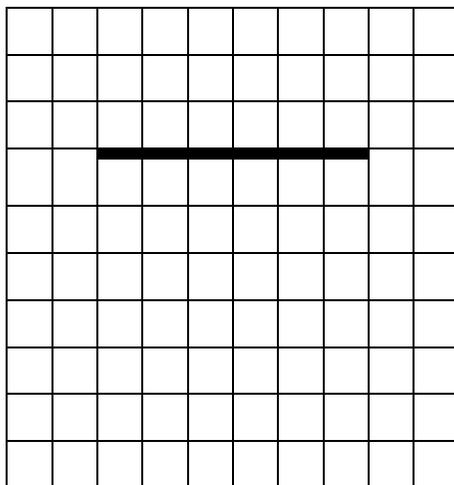

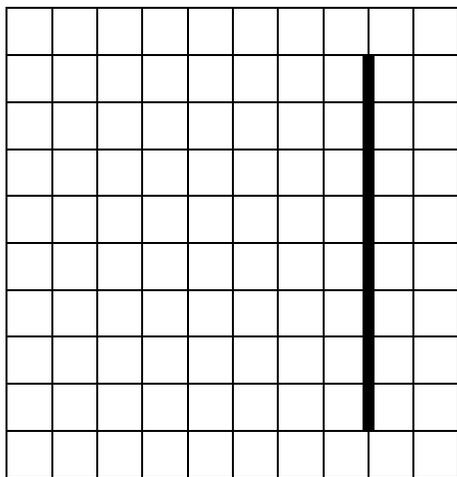

**Толстый тонкого побьет –
Тонкий что-нибудь прибьет.**

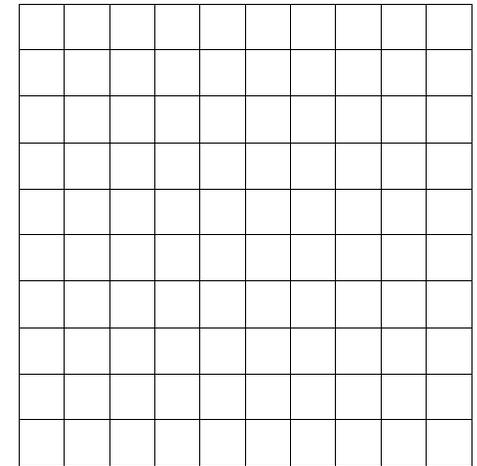

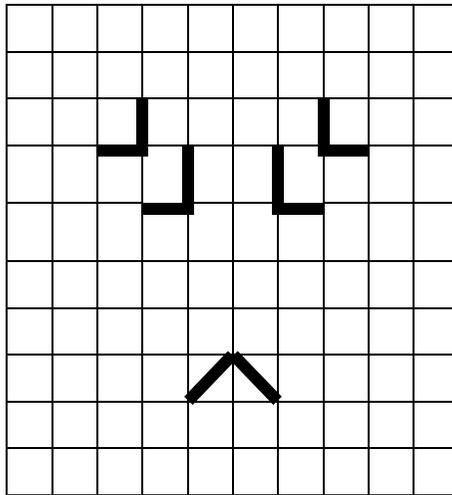

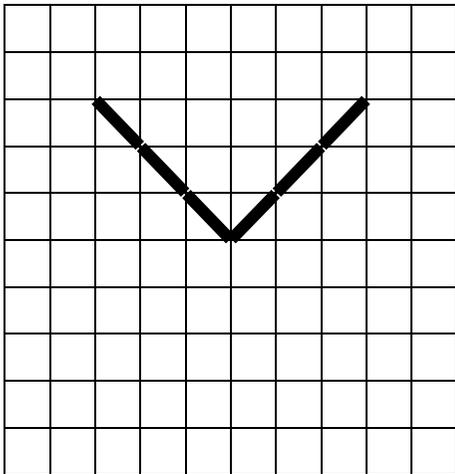

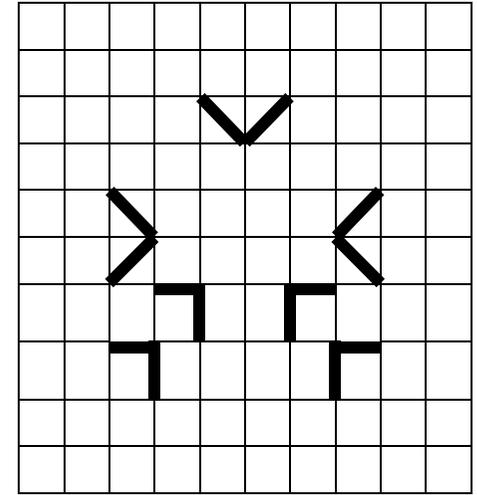

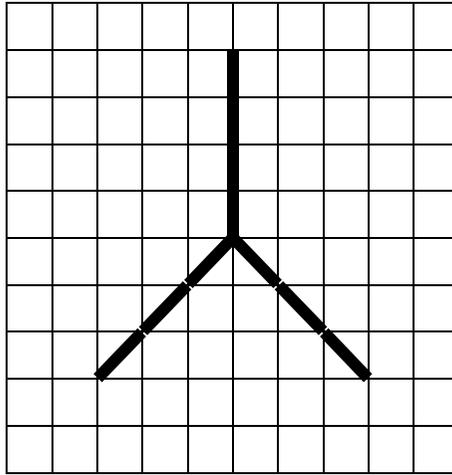

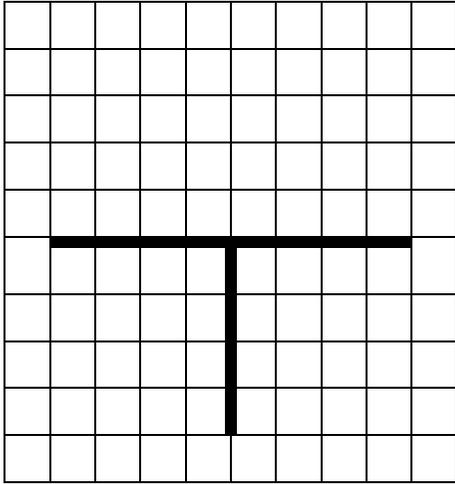

**Дом из камня с завитками,
В этом доме «зверь» с рогами.**

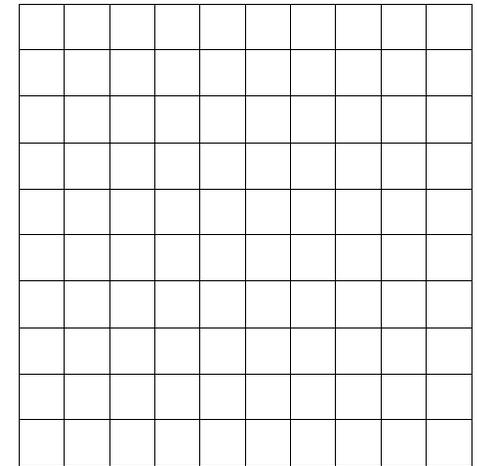

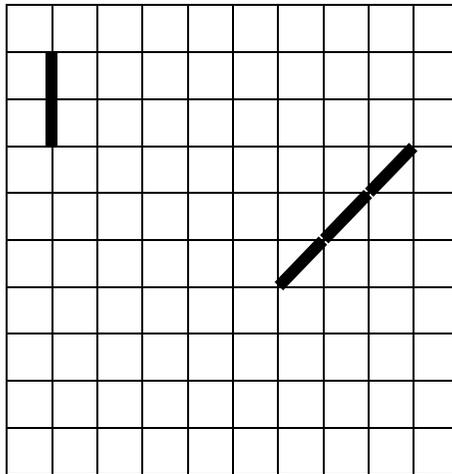

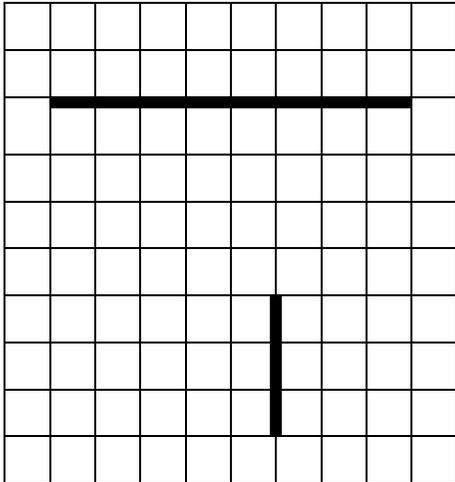

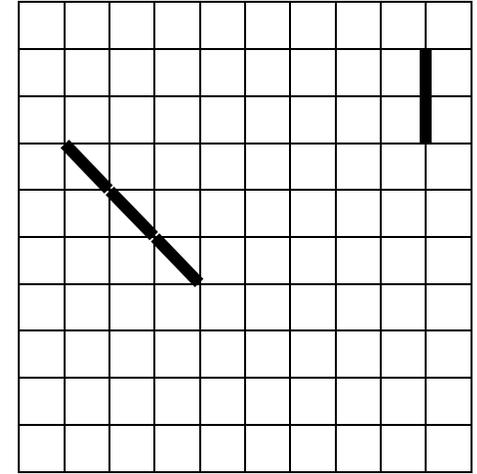

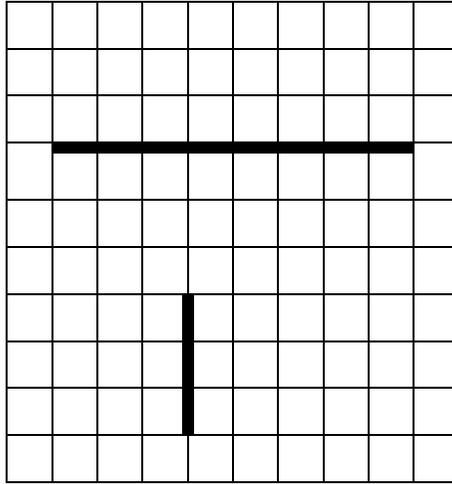

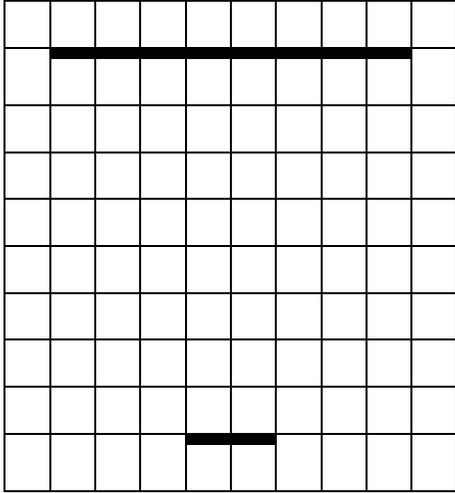

**И от ветра и от зноя
От дождя тебя укроет,
А как спать в ней сладко
Что это? ...**

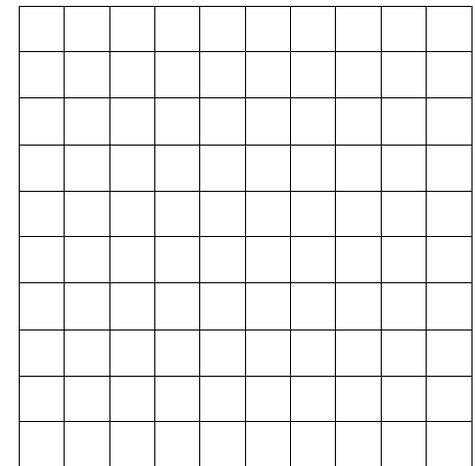

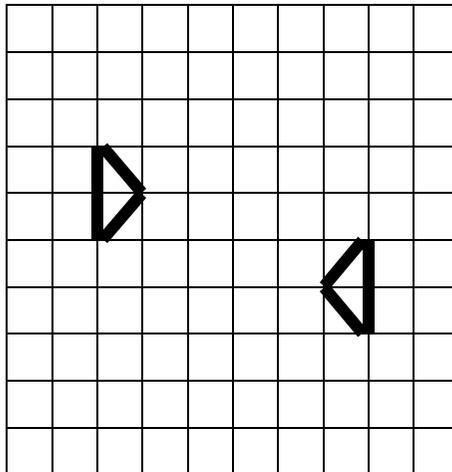

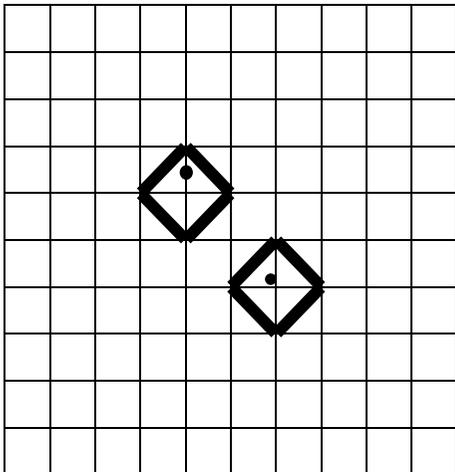

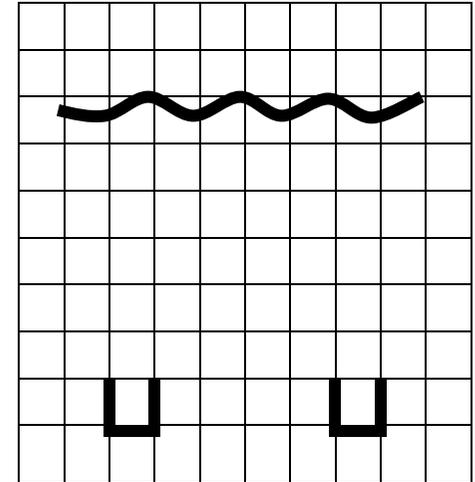

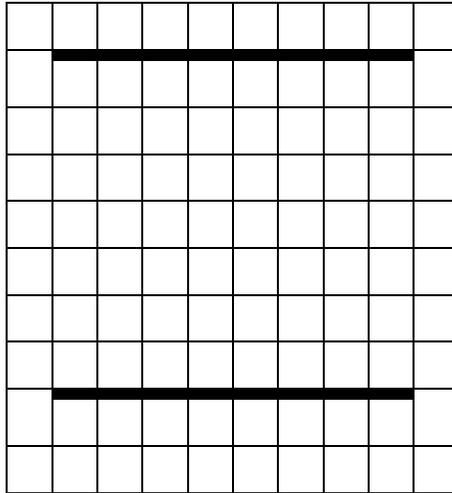

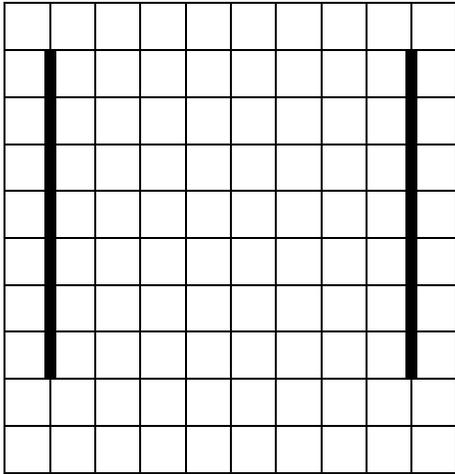

**Поля стеклянные,
Межи, деревянные.**

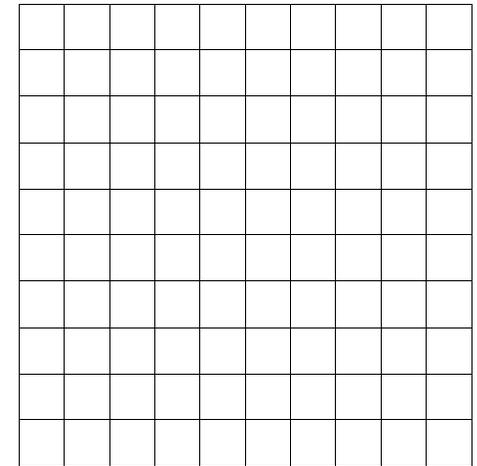

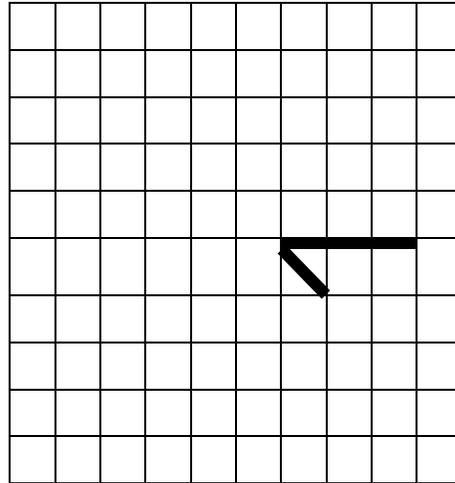

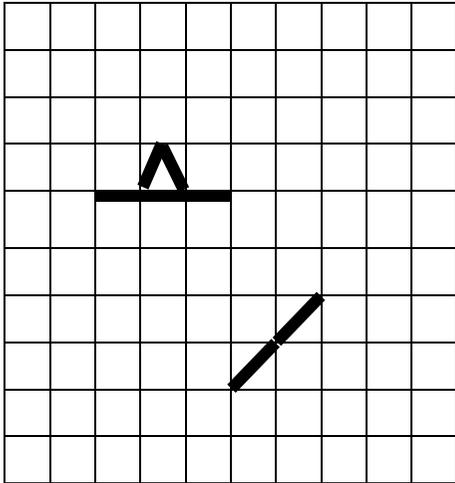

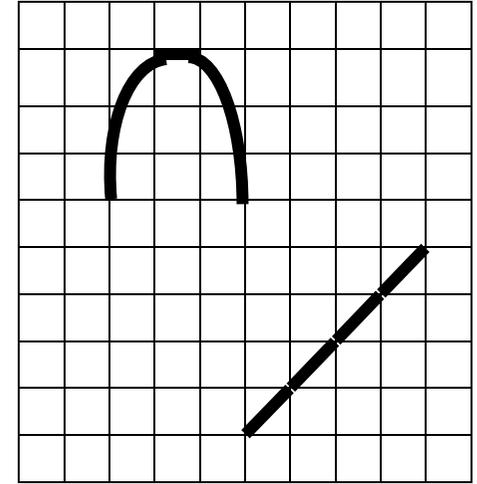

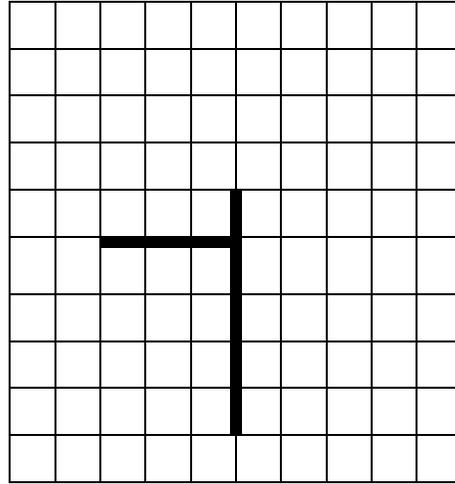

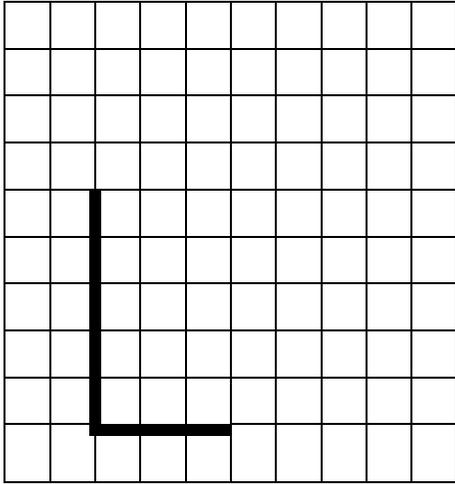

**От тепла я плачу
Не могу иначе.**

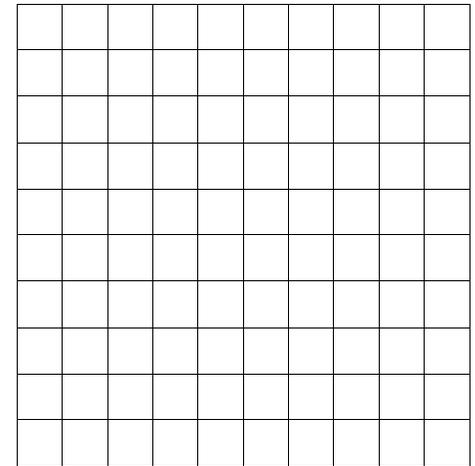

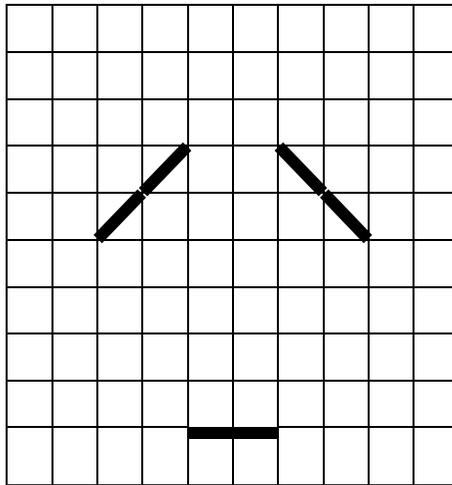

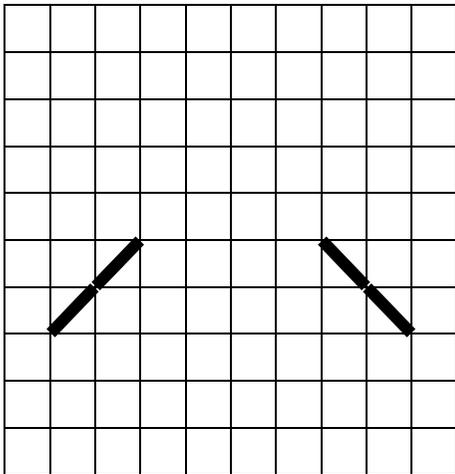

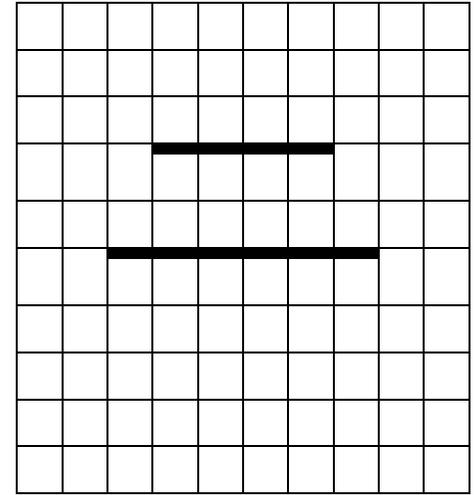

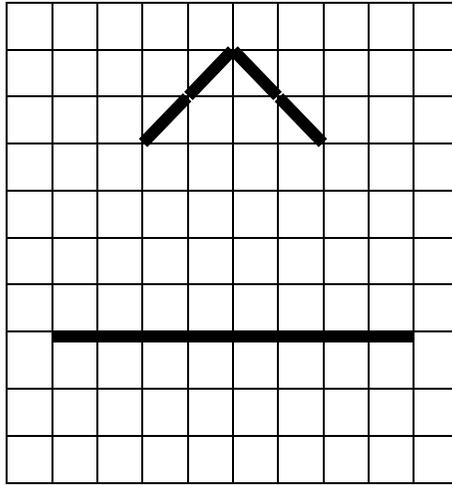

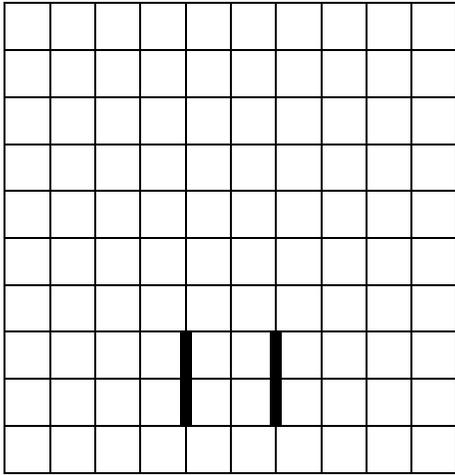

**Сделана для жидкости,
А жидкость в ней не держится.**

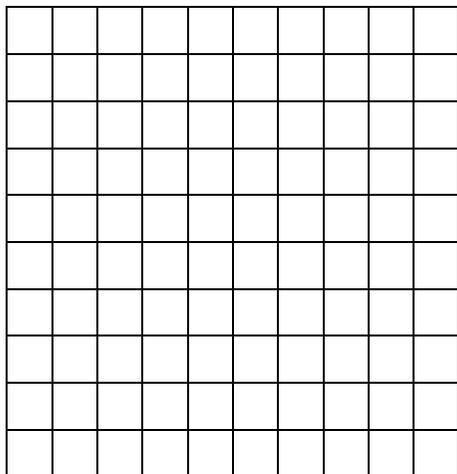

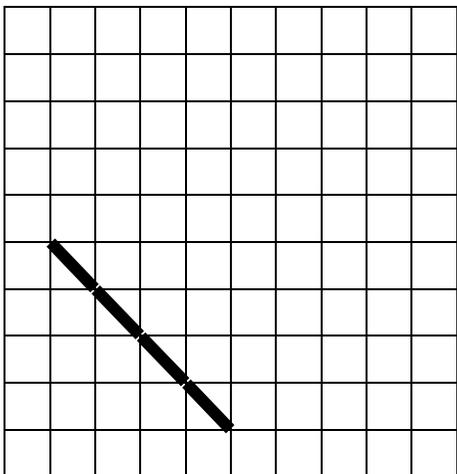

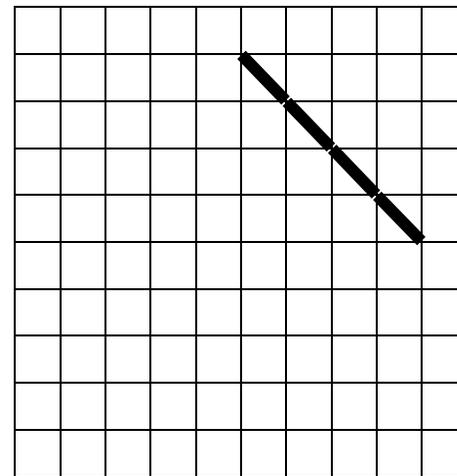

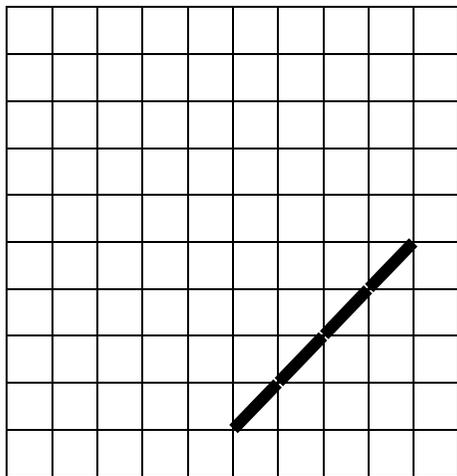

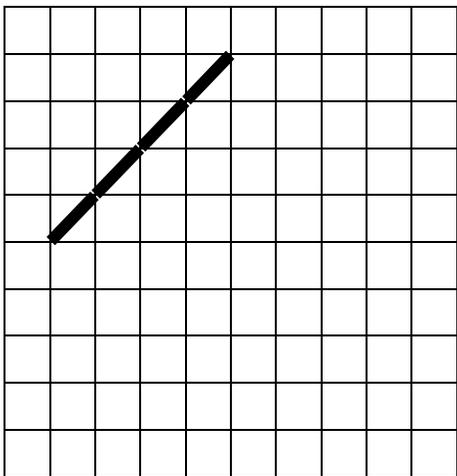

**Стеклянный дом, а в доме том
Во все концы снуют жильцы.**

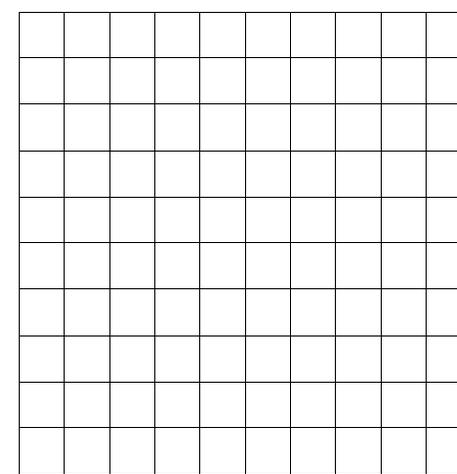

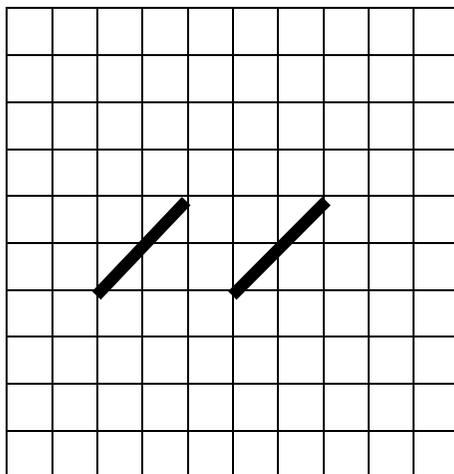

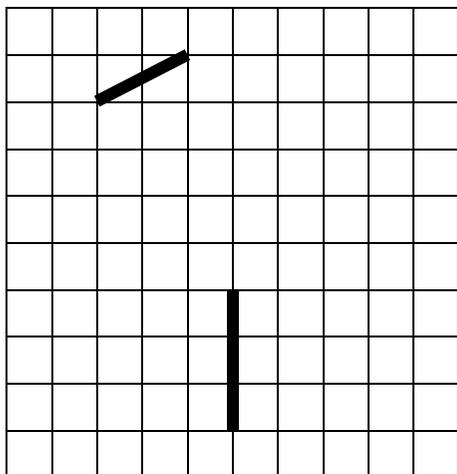

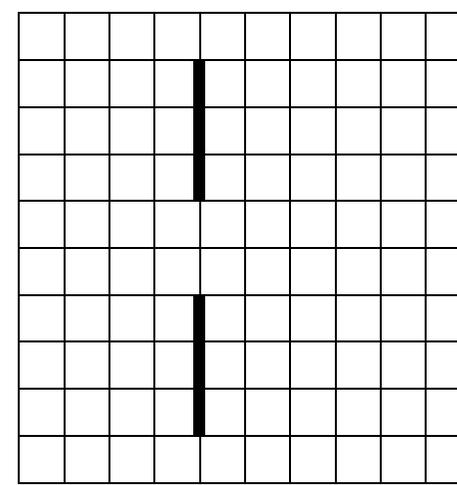

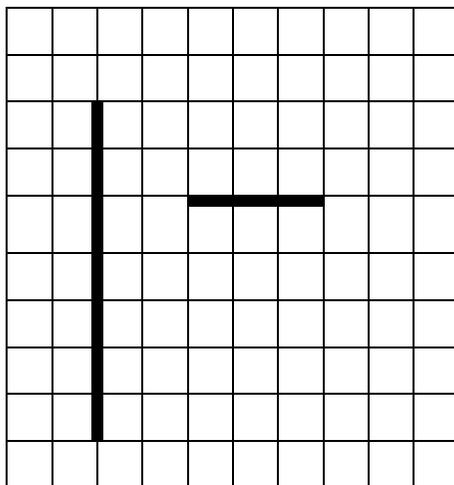

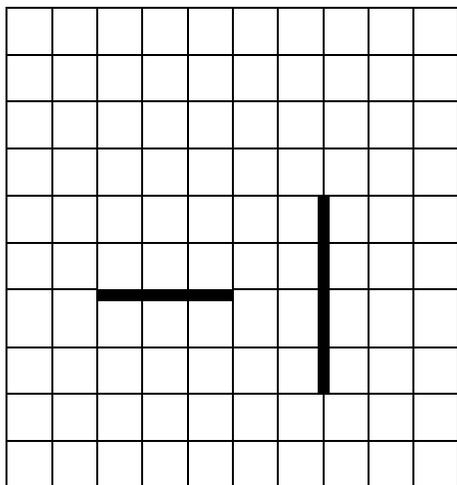

**Где носом качнет,
Там вода потечет.**

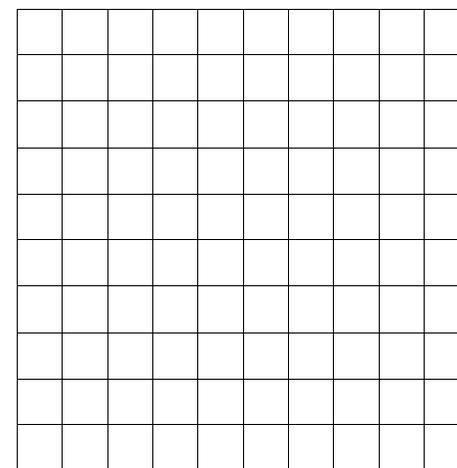

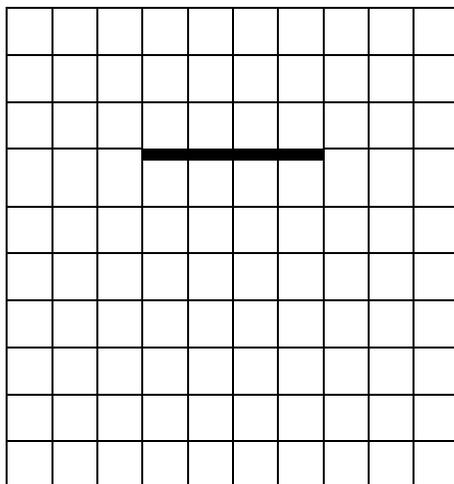

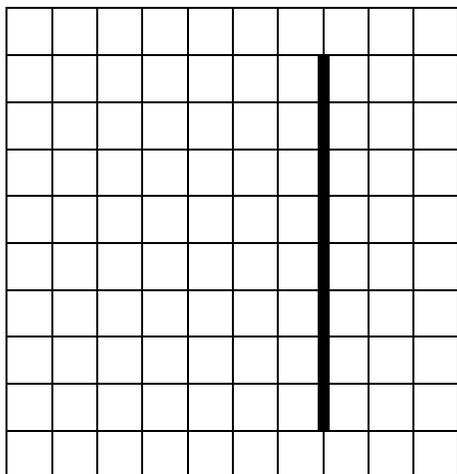

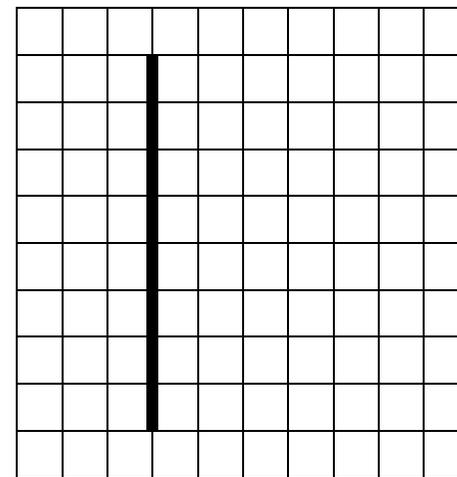

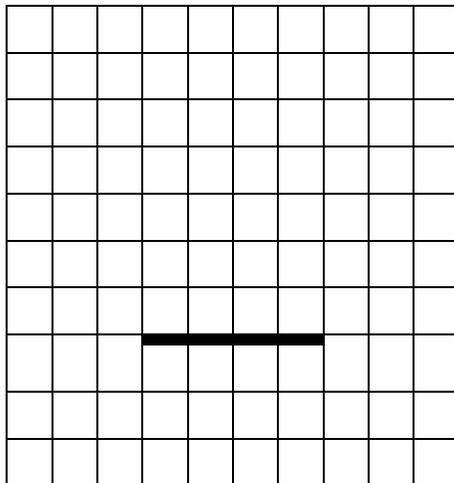

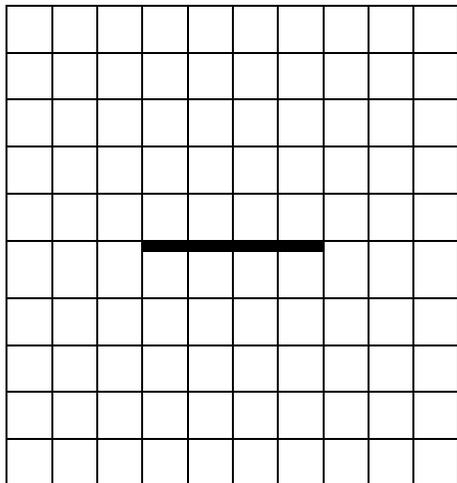

Кого раз в году наряжают?

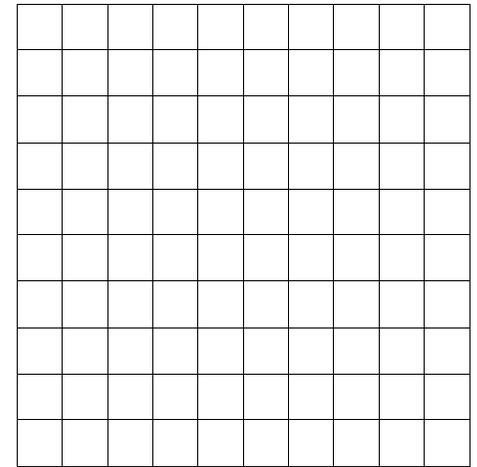

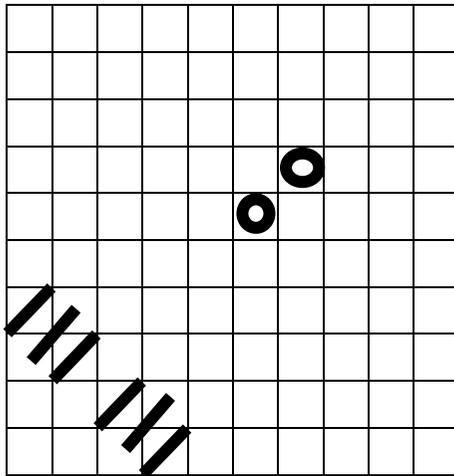

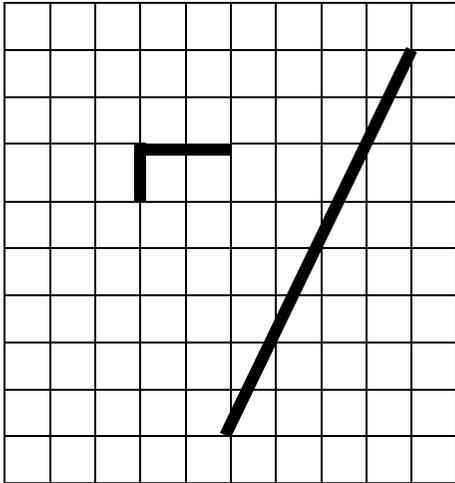

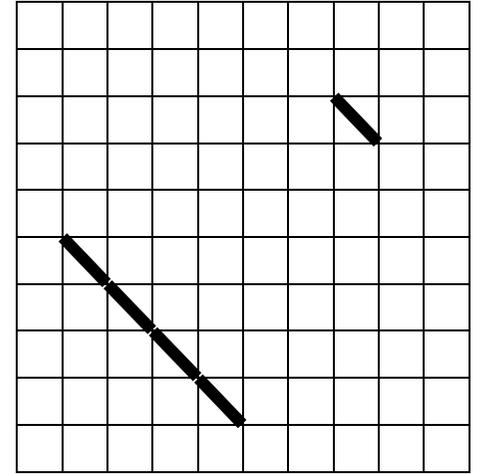

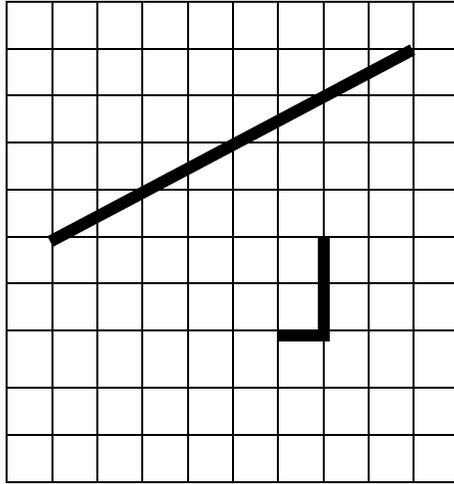

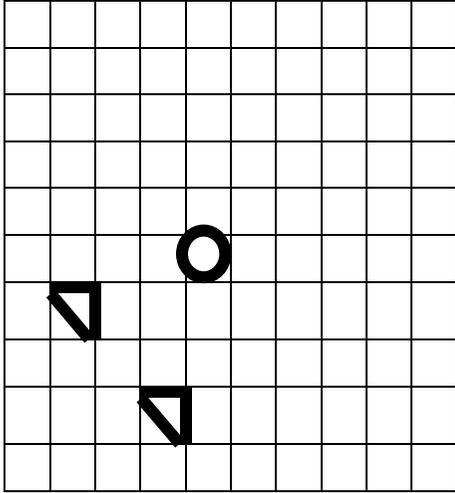

**Встал квадрат на уголок,
Ткнулся носом в потолок.**

**Хоть у нас четыре ножки, мы не мышки и не кошки.
Мы не кони, хоть на нас вы садились много раз.**

**Лежит на спине – никому не нужна,
Прислони к стене – заберешься вверх по ней.**

**Чудо птица, алый хвост,
Прилетела в стаю звёзд.**
