## Вступление и разминка.

Today we'll talk about nature, its beauty and its role in human life.  
What words and phrases do you associate with the word nature?

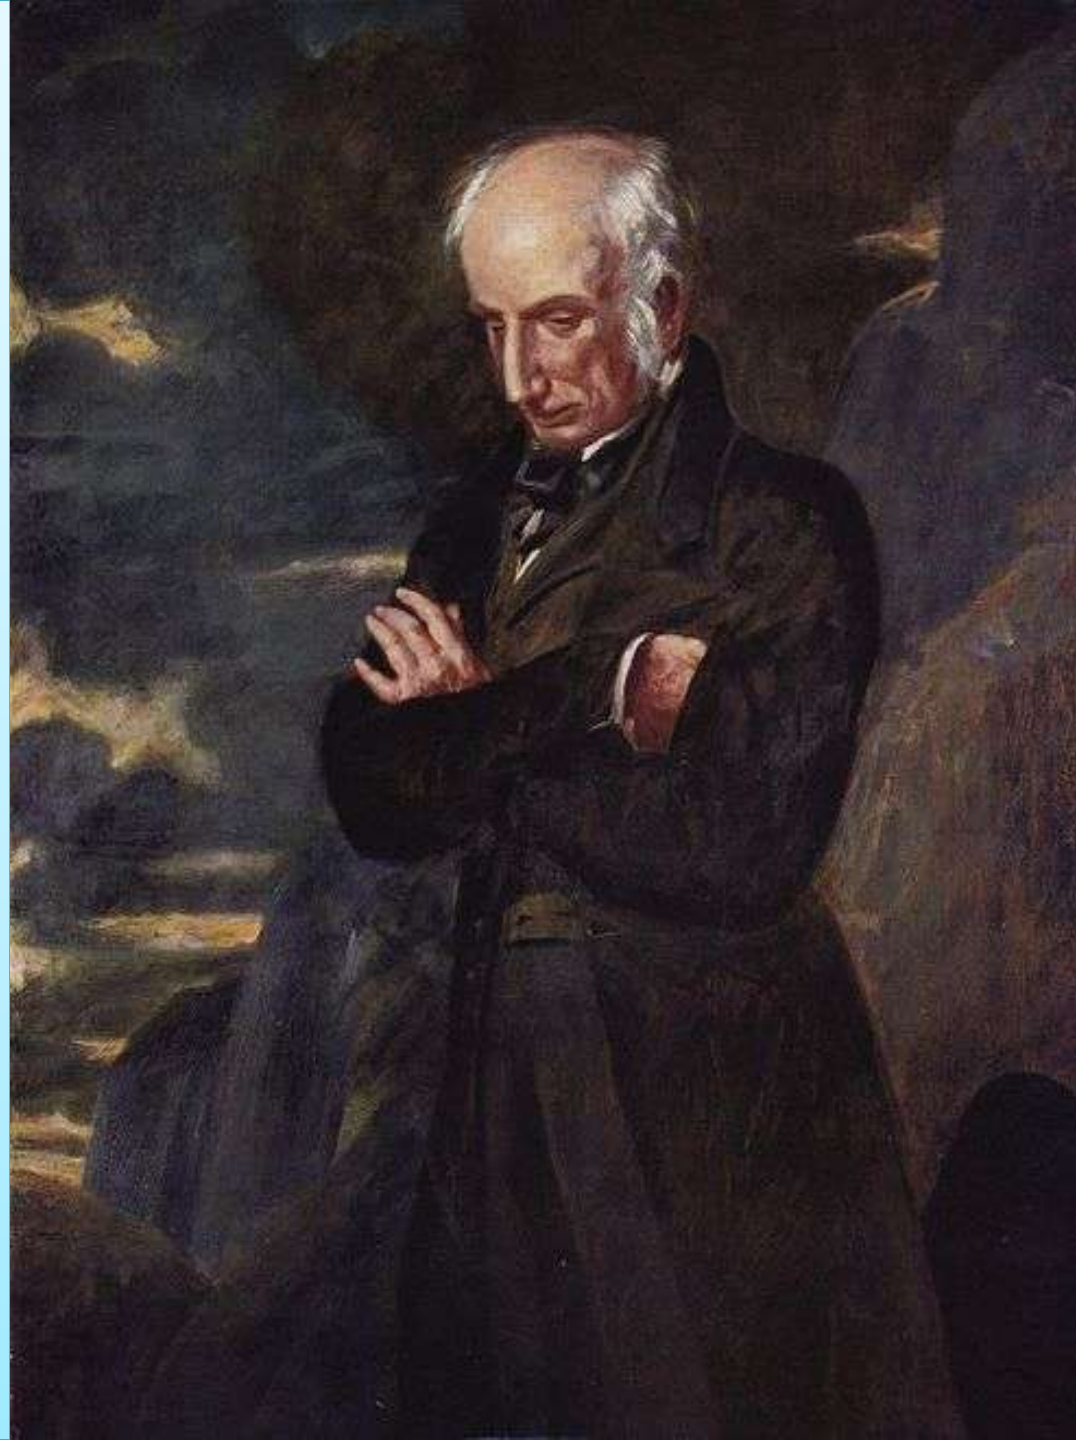

**Make sentences using these expressions. You will describe the place where you spend your summer holidays.**

Forest full of mushrooms and berries, crystal clear water of the small river, high snowy mountain, bright meadow with flowers, sandy beach, warm sea, long road disappearing into the distance,

**Example.** I spend my summer holidays with my granny. Near her house was a beautiful forest full of mushrooms and berries.

The beauty of nature has always inspired great poets, writers, composers and artists.

**William  
Wordsworth  
(1770-1850)**

**“ September”  
(1815)**

**WHILE not a leaf seems faded; while the  
fields,  
With ripening harvest prodigally fair,  
In brightest sunshine bask; this nipping air,  
Sent from some distant clime where Winter  
wields  
His icy scimitar, a foretaste yields  
Of bitter change, and bids the flowers  
beware;  
And whispers to the silent birds, "Prepare  
Against the threatening foe your trustiest  
shields."  
For me, who under kindlier laws belong  
To Nature's tuneful quire, this rustling dry  
Through leaves yet green, and yon crystalline  
sky,  
Announce a season potent to renew,  
'Mid frost and snow, the instinctive joys of  
song,  
And nobler cares than listless summer knew.**

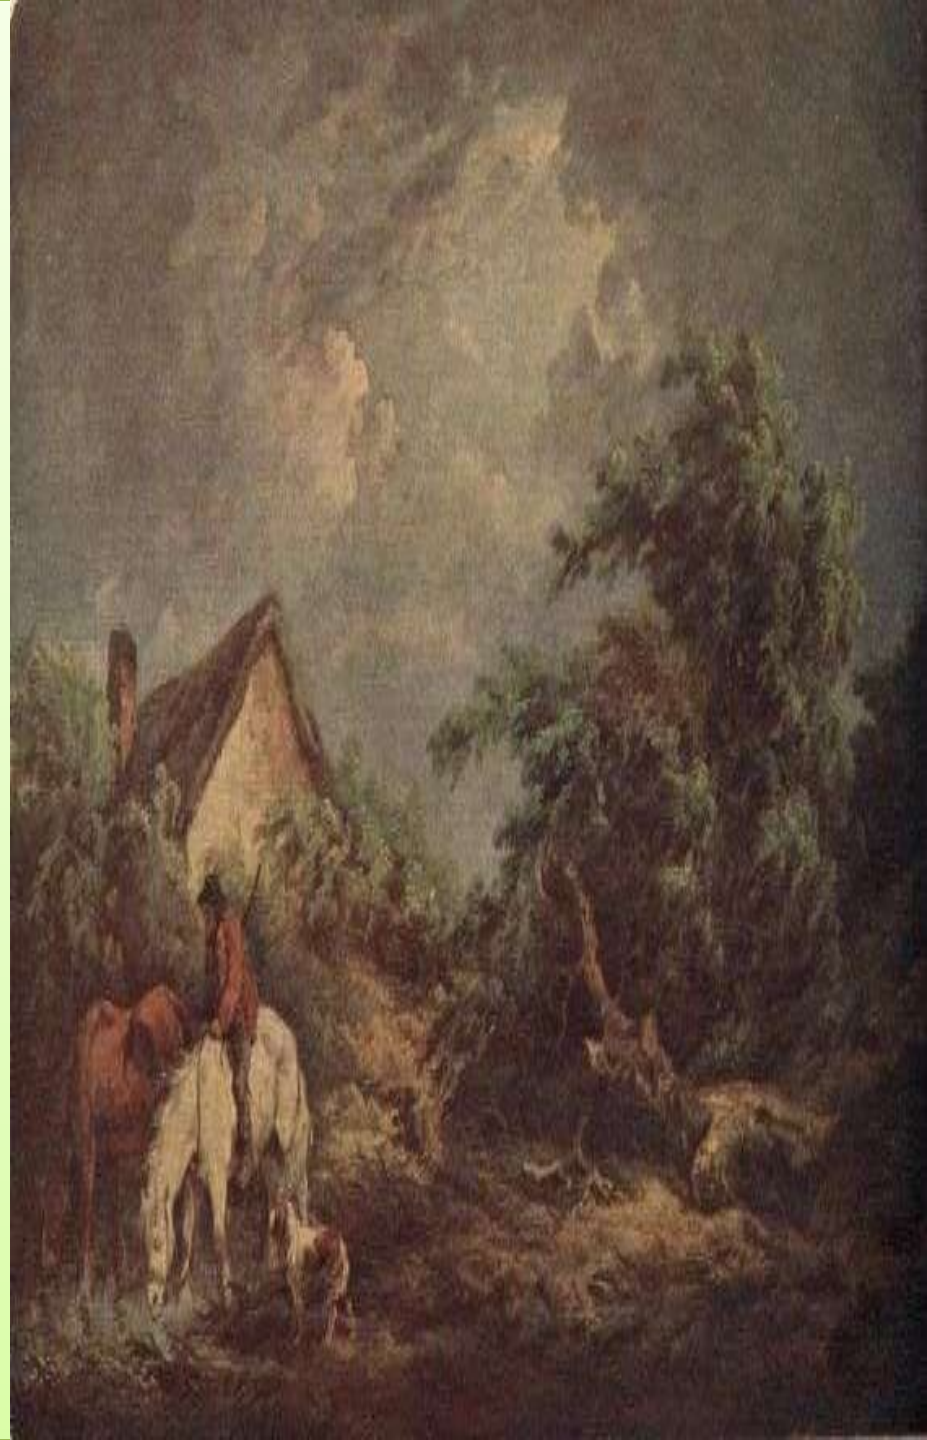

## Questions:

1) What words and expressions using in the poem are unknown for us?

2) What are the typical features of the English countryside?

**Знакомство с понятием  
“пейзаж”. Описание  
картины с применением  
новых лексических  
выражений с опорой на  
вопрос.**

**In our city in the Hermitage  
you can see some  
wonderful landscapes .  
“The Approaching  
Storm” by George Morland  
(1763-1804)- is one of them.**

# Questions:

1. What's the genre of this picture?
2. What details of the approaching storm are depicted in this painting?
3. What mood is created by the picture?
